

The Great Annual Fish Count (GAFC) is a fun way to learn about local oceans. Every July divers and snorkelers across the world join to learn about marine diversity and conduct fish surveys as part of REEF's ongoing Volunteer Fish Survey Project.

Why Participate In the GAFC

- Celebrate marine conservation
- Make a difference and become a citizen scientist
- Learn to identify and document fish diversity
- Raise awareness about marine habitats and trends in fish populations
- Provide valuable data to researchers as they monitor ocean changes

How to Participate

- Join a local dive shop or REEF Field Station hosting a GAFC event
- Attend free educational seminars
- Conduct fish surveys and join leagues of citizen scientists around the world

**Make a difference in marine conservation—
join in The Great Annual Fish Count!**
